SHARE

- October 26, 3:30 – 4pm
- Closing. You spent your whole Saturday to learn and share. It is time to for Prizes! Prizes! Prizes!

Schedule of Events

Thursday, October 24

7:00pm – 9:00pm Join us for a trivia game, networking and just FUN! The details will follow.

Friday, October 25

7:00am Registration Begins
7:15am – 7:30am First Timer's Session
7:00am – 4:00pm Commercial Exhibits
8:00am – 4:00pm Sessions
8:00am – 9:00am Featured Speaker: Robert Gerver, The Institute for Creative Problem Solving, NY.
Alternative Pathways for Struggling Students to Get 4 Math Credits. Two alternatives to Algebra 2 and Precalculus, Advanced Algebra with Financial Applications, and Hands-On Statistics will be presented.
10:45am – 11:45am Keynote Speaker: Jim Matthews, Siena College, NY
The Dinner Table Test: Pass the Stake! Help your students pass the Dinner Table Test. What will your students say when asked: "What did you learn in your math class today?" We will discuss the components of this test and make suggestions on how your students can pass it with flying colors.
 The space for collaborative sessions for Elementary level, Middle level, and High School level will be available throughout the day.
2:45pm – 3:45pm Past Presidents' Reception: By Invitation Only
3:45pm – 5:00pm President's Reception: Open to ALL.
5:00pm – 6:30pm AMTNJ Annual Business Meeting: Open to ALL.

- [Cranbury Inn](#). 21 South Main Street, Cranbury
- 7:00pm – 9:30pm.
- You can purchase your ticket at the time of registration or afterwards using the link [Friday Banquet](#).
- The cost per person is \$30.00

Saturday, October 26

7:00am	Registration Begins
7:00am – 4:00pm	Commercial Exhibits
8:00am – 3:30pm	Sessions
9:30am – 10:30am	Featured Speaker: Gail Burrill, Michigan State University <i>Why Teach Mathematics? How Do We Convince Students Mathematics is Important?</i> Much of the focus on what students should know in mathematics has been on college and career readiness. NCTM's Catalyzing Change suggests there is more to mathematics. What does this mean for us as teachers? Is knowing what factors are, and how they connect to the roots of a function more important than being able to factor? Let's revisit what we do and why.
The space for collaborative sessions for Elementary level, Middle level, and High School level will be available throughout the day.	
3:30pm – 4:00pm	Close-out and Prizes.
